6.	Pollution of drinking water	65%	22%	(87%)		7%	4%	*
7.	Do you have any concerns about drinking water straight from your tap?							
	33% Yes							
	67% No							
12.	With which of the following statements do you most agree?							
	27% The government has gone too far with laws regulating environmental protection which has hurt businesses and landowners.							
	55% The government has not gone far enough with laws to protect the environment and to keep our water free from pollution.							
	18% Don't Know							

¹ Rural voters in Ohio's 18th Congressional District were randomly selected from a universe of households defined as "rural" based on the Census Tract of that address. Census Tracts with a plurality of households defined as rural (as opposed to suburban or urban) were included in the sample universe. According to the 2008 Almanac of American Politics, 57% of the population in Ohio's 18th Congressional District is rural.

Bellwether Research & Consulting

13. The Clean Water Act is the primary federal law to limit water pollution.

59% (Some/other) people say that the original intent of the Clean Water Act was to protect all bodies of water from pollution, not just those defined as navigable, and that all streams, wetlands, waterways, and bodies of water should be protected from pollution that could contaminate drinking water, foul waters and wildlife habitat, and make rivers, lakes and streams unusable for fishing or swimming.

28% (Other/some) people say that the Clean Water Act should not be expanded to apply to all bodies of water, such as isolated wetlands or other waterways not defined as “navigable” because it would amount to over-regulation by the federal government on private property owners, businesses or developers.

Which is closer to your opinion?

13% Don't Know

14. Would you be more likely or less likely to vote for a candidate who voted to have the Clean Water Act protect all bodies of water from pollution?

41%	Much more likely	
26%	Somewhat more likely	67% Total More Likely
10%	Somewhat less likely	
7%	Much less likely	
17%	Don't Know	

Now, I have just a few more questions for statistical purposes...

15. Do you currently own, operate, or work on a farm?
